Profile

Experienced Lead Frontend Developer with a proven track record of delivering high-quality web applications. Skilled in JavaScript, React, and HTML5, with a strong grasp of Git and REST APIs. Adept at collaborating with cross-functional teams and delivering exceptional user experiences. Eager to leverage my skills and knowledge as a Frontend Developer at a dynamic organization.

Employment History

Frontend Web Developer at Attitech

04/2024–Present

As a Frontend Web Developer at Attitech, I am responsible for creating and implementing user interface components using Vue, React, and other modern technologies to deliver high-quality web applications. I collaborate with cross-functional teams to gather and understand project requirements, and then translate them into functional and visually appealing interfaces that enhance user experience.

- Develop and implement user interface components using Vue, React, and other modern technologies.
- Collaborate with cross-functional teams to gather and understand project requirements.
- Translate project requirements into functional and visually appealing interfaces that enhance user experience.
